To: All Potential Customers for the ES2 Module Family

Re: End of Life Notice

Dear customer,

Linx Technologies is announcing that the planned commercial release of the ES2 transmitter and receiver modules will not occur, and the ES/ES2 module line will not be supported.

Key components critical to the design of the ES Series modules were discontinued by the IC manufacturer in 2017 with no replacement and the EOL notice for that family of product was released in 2017 (LEOL-171117-1). Prior to the release of the next-generation ES2 modules, the IC manufacturer of the radio IC's in the ES2 module recently announced the discontinuance of the ICs with no replacement. Linx is therefore discontinuing the planned release of the following products:

- TXM-916-ES2
- RXM-916-ES2

A small inventory of pilot production product will be available for sale to support existing customers that planned to use the ES2 module in their existing applications. Please contact Linx Sales or Customer Service for further details regarding this notice.

End of Life Notice for all ES2 Family Module Products

PCN #: LEOL-200814-1

Publish Date: August 14, 2020

Type of Change

End of life

Products Affected

TXM-916-ES2

RXM-916-ES2

Description of Change

Cancellation of commercial release and end of life notice for ES2 Module Family

Reason for Change

Critical component used is no longer available.
