

Handheld Transmitter Quick Start Reference

1 Remove Contents

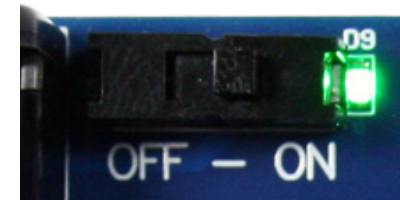

Remove the boards, antennas, batteries and connectors.

2 Set Up Board

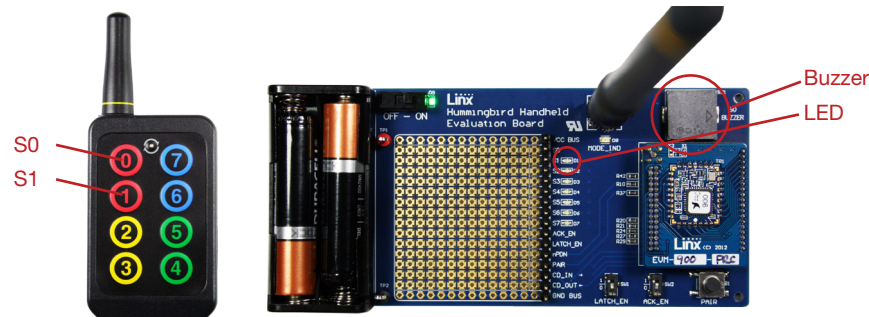

Install batteries and an antenna on the board.

3 Power On

Turn on the power switch.

4 Activate

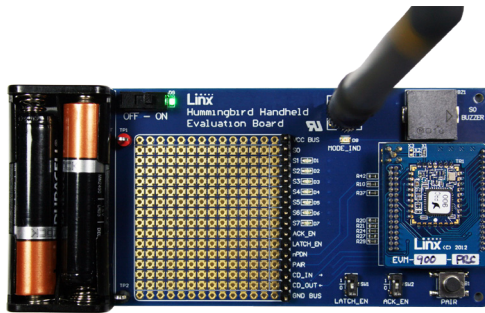

Push S0 to activate buzzer and push S1 to turn on the LED.

Pairing the Transmitter and Evaluation Board

The Handheld Transmitter and the Evaluation Board come pre-paired in the kit. This procedure can be used to pair additional transmitters.

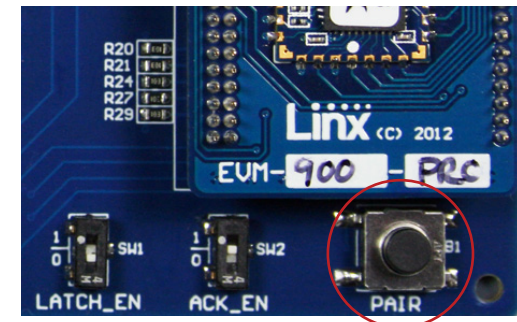

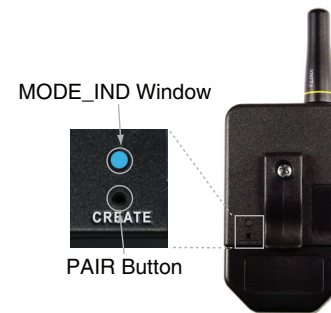

1 Set the Administrator

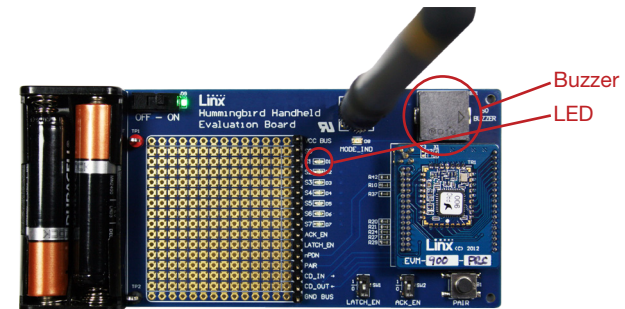

Press and hold the PAIR button for 30 seconds to set the module on the evaluation board as an Administrator. When the MODE_IND flashes, release the button. This only needs to be done once, and is done at the factory.

2 Pair the Devices

Press the PAIR button on the evaluation board and on the back of the transmitter within 30 seconds of each other. The devices automatically find each other and pair.

3 Activate

Push S0 to activate buzzer and push S1 to turn on the LED.
